

NY State Arts Requirements

The New York State Education Department's (NYSED) Instructional Requirements for the Arts outline the continuum of educational experiences students need for their academic and social development. All New York city public schools are expected to meet the NYSED Instructional Requirements for the Arts as outlined below. These requirements are included in each school's Annual Compliance Review and are an important component of principals' annual performance evaluations. The DOE uses the NYSED Instructional Requirements for the Arts as the foundation for sequential arts education instructional programs because they are developmentally appropriate, and because we know that teaching and learning in these subjects is extremely beneficial for our students.

In the early grades, the study of dance, music, theater, and visual arts enriches student learning across the entire curriculum while developing students' ability to express themselves and build skills and knowledge in a variety of forms. As students move from elementary to middle school, the arts become an important vehicle for self-expression and provides an opportunity for students to focus on a particular art form along with like-minded peers, giving them sense of belonging within the school community. Finally at the high school level, students can pursue the study of a particular art form in greater depth and consider the options available for advanced study, the possibility of a career in New York City's vibrant arts community, and the chance to earn a Regents Diploma with Advanced Designation through the Arts.
